APPLICATION CATEGORIES	PRODUCTS
<p>Threadlocking</p>  <p>Benefits of using LOCTITE® Threadlockers:</p> <ul style="list-style-type: none"> • Bonds metal fasteners to prevent loosening from shock and vibration • Fills air void to seal and protects threads from rust and corrosion • Single component – clean and easy to apply or automate • Can be used on various sizes of fasteners – reduced inventory costs • Long open time – cures in absence of oxygen and presence of active metal 	<ul style="list-style-type: none"> • Loctite 290 • Loctite 2047 • Loctite 243 • Loctite 263 • Loctite 246 • Loctite 2422
<p>Thread Sealing</p>  <p>Benefits of using LOCTITE® Thread Sealants:</p> <ul style="list-style-type: none"> • Bonds metal fasteners to prevent loosening, unlike solvent pastes • Does not creep, shred or block systems like PTFE tape • Single-component pastes – clean and easy to apply • Can be used on various sizes of fasteners – reduced inventory costs • Fills air void to seal in liquids and gas, and protects threads from rust and galling 	<ul style="list-style-type: none"> • Loctite 561 • Loctite 567 • Loctite 5770 • Loctite 5452 • Loctite 545
<p>Gasketing</p>  <p>Benefits of using LOCTITE® Gasketing Compound:</p> <ul style="list-style-type: none"> • Fill all voids – relax the tolerances and preparation of flange surfaces • Can be used on various flange configurations – reduce inventory costs • Eliminate shimming and compression setting – no need for re-torquing • Seals liquids and gas, and protects flanges from corrosion • Unitize flange assemblies for added reliability and durability 	<ul style="list-style-type: none"> • Loctite 5188 • Loctite 518 • Loctite 510 • Loctite 5600 • Loctite 5900 • Loctite 5920

APPLICATION CATEGORIES	PRODUCTS
<h3>Retaining</h3> <p>Benefits of using LOCTITE® Retaining Compounds:</p> <ul style="list-style-type: none">• High shear strength - augment or replace press fits• 100% contact - even distribution of load and stress• Eliminate fretting and backlash in keys and splines• Fills air voids to seal and protect from corrosion• Relax part tolerances 	<ul style="list-style-type: none">• Loctite 648• Loctite 638• Loctite 620• Loctite 232• Loctite 640
<h3>General Bonding</h3> <p>Benefits of using LOCTITE® Adhesives:</p> <ul style="list-style-type: none">• More uniform distribution of stress over the entire bondline• Liquid adhesives are easy to apply and automate• Join dissimilar materials, such as metal to plastic or rubber• Fill gaps between parts to seal and protect from environment• Improve strength, aesthetics, and durability of an assembly at a fraction of the cost 	<ul style="list-style-type: none">• Loctite 435• Loctite 334/7387• Loctite 9460• Loctite H8000• Loctite E-30UT• Loctite E-214HP
<h3>Potting and Encapsulating</h3> <p>Benefits of using LOCTITE® Potting and Encapsulating Products:</p> <ul style="list-style-type: none">• Fill large gaps to insulate and protect• Seal out moisture and debris from sensitive electronics• Unitize wires and assemblies for added integrity and durability• Prevent tampering with settings and gauges• Eliminate expensive high-pressure molding processes 	<ul style="list-style-type: none">• Loctite 3364• Loctite E-40EXP• Loctite E-30CC• Loctite 5611F• Loctite 5031
<h3>Wear Coatings</h3> <p>Benefits of using LOCTITE® Wear Coatings:</p> <ul style="list-style-type: none">• Provide wear and impact resistance to metal surfaces• Use on new parts to extend life• Reduce surface roughness to increase part efficiency• Create high-slip surfaces for improved flow and performance 	<ul style="list-style-type: none">• Loctite Nordbak Chemical Resistant Coating• Loctite Nordbak Brushable Ceramic• Loctite Nordbak Pneu Wear• Loctite High Temp Pneu Wear• Loctite Nordbak High Temp Brushable Ceramic• Loctite Ultra High Temp Pneu Wear
